FORMPLY
information

FORM PLY

FormPly is a high quality and highly durable film-faced plywood ideally used for concrete formwork.

FormPly is constructed with mixed hardwood and softwood veneers, and high-density phenolic resin overlay film on both sides to prevent concrete sticking to the plywood.

The film-face also provides some water protection which means washing down is easy and reusing is an option.

Specifications

- Grade: F17
- Non-appearance grade with a solid surface face
- Face/Back 160gsm black film, class 2
- Adhesive rating: A bond
- Emissions: E₀
- Moisture content as per AS/NZS 2269 (not less than 6% or more than 12%)
- Origin Verified as standard across all SmartFrame products
